SAFETY AND HEALTH
Training and Consulting

GS&H will work with your safety staff and/or management staff to improve all aspects of your safety and health programs. Our successes are a direct result of management involvement and enthusiasm as our clients and their employees embrace safety attitudes as an essential value.

If your company has a specific safety issue or wants to build a comprehensive safety and health program, GS&H will provide the consulting & training expertise to help your company achieve its safety goals.

Griffith Safety & Health will:

- Identify the hazards
- Decide who might be harmed and how
- Evaluate the risks and decide on precautions
- Record your findings and implement them
- Review your assessment and update if necessary

Let our experienced instructors do the training for you and gain the benefits of:

- A proven learning approach that combines video-based instruction and hands-on practice, ensuring that students effectively retain lifesaving knowledge.
- A low instructor/student ratio that allows for more personalized instruction, demonstration, practice and feedback.
